Dave and Ayn, For what it is worth and for future purposes, this email contains a link to USGS well construction guidelines that we use in the National Water Quality Assessment Program when installing monitoring wells.

<http://pubs.usgs.gov/wri/wri964233/pdf/wri964233.pdf>

It covers some basics, nothing sophisticated like your wells with BOP. But you may want to have this document for reference in case something comes up and you want to check it out with what this document states.

Chapter on installation of wells, on page 64-70 may be of particular interest.

Have a nice weekend.
